

## Actress VICTORIA GUTHRIE Earns Acting Nomination at London IFF for New Celebrated Mystery Film 'ONE, TWO, GUESS WHO'S WHO'

LOS ANGELES (date) – Actress **Victoria Guthrie** earns a nomination for 'Best Supporting Actress' at the London International Filmmaker Festival (London IFF) for her role as 'Mrs. Stevenson' in the award-winning murder mystery feature film, **ONE, TWO, GUESS WHO'S WHO**. The film will screen at the festival on February 12, 2018, and has already earned numerous awards on the festival circuit.

*ONE, TWO, GUESS WHO'S WHO* kicks-off in a rich Manhattan condo when a billionaire woman is murdered. Guthrie steps into the storyline as the woman in black, Mrs. Stevenson, who is involved with the same man as the woman in red and the woman in white. All the evidence leads the police to a conclusion and suspect, but could they be wrong? This murder mystery captivates audiences in the classic who-dunnit style of Hitchcock with a twist that delivers the story backwards.

Directed by Lorenzo Faccenda, the film has been racking up awards at numerous festivals, including the New York Film Awards, Los Angeles Int'l FF (LAIFF), Stars Hollywood Festival, Int'l Independent Film Awards, Top Indie Film Awards, Around Int'l Amsterdam FF, Hollywood Int'l Moving Pictures FF, Festigious Int'l FF, Eurasia Int'l Monthly FF, Red Corner FF, Alternative FF, California Film Awards, Independent Horror Movie Awards, and Austin Spotlight FF.

Up next, the film heads to Flathead Lake International Cinemafest in Polson, Montana (Jan 26-28); Indie fest Film Awards in La Jolla, CA (Feb 6); and Central Alberta FF in Alberta, Canada (Feb 23-25).

Guthrie is excited to be part of a film that is resonating so well with audiences, adding "Lorenzo had the most incredibly clear vision about everything related to this film from clothing, camera angles, set design, to the poise of our legs. He put his all into it and had many setbacks before being able to bring it to the public. It is a great pleasure to see all that creativity and hard work be rewarded by our peers and appreciated by the public. I enjoyed working with him immensely."

Guthrie is also set to appear in several upcoming film projects, including *THE DANCER* and *THE FINAL MISSION*. Plus, this talented beauty is creating *THERE WAS ALWAYS A SONG*, a one-woman show with original songs she is co-writing with Bob Goldstone.

This talented beauty has built a solid reputation in the industry with over 100 film, TV and theater credits under her belt. Audiences will recognize her from the 'Best Supporting Actress' nominated role as UFO research Claire Tilghman in Season Two of *MILGRAM AND THE FASTWALKERS*, the multi-award winning noir soap/sci-fi hybrid series with more than 3 million views. In addition, she has picked up several awards on the festival circuit including: 'Best Supporting Actress' for *ORIGAMI GATE*; 'Best Actress in a Drama' and a second nomination for *TALES OF CREATION*; an Indie Fest Award of Recognition--Supporting Actor for *STATIONARY*; and a nomination for 'Best Actress in a Drama' for *DUNES ATLANTIC*. She also garnered praise for her role in the short film, *MASTER CLEANSE*, which earned nods and awards on the festival circuit; and for her role in the feature *WALLABOUT*, which was awarded 'Best Personal Narrative' at the Manhattan FF.

The Holt, Michigan native first made her way to New York City to study fashion design. It didn't take long for the modeling world to take notice of Guthrie's natural beauty, sending her traveling all over the world for shoots and runways. Eventually, she settled back down in the Big Apple, set her creative sights on acting and hasn't looked back.
